OUR BUSINESS IS SECURING YOURS

COMPANY

Clause Protection Services is a security and protection company aimed at offering the best service to our clients. The company has over the years grown with clients as well as the services we offer in order to meet our client's requirements and the opportunities out in the industry.

We are a company that has over the years put together a team of security professionals who take the securing of clientele property and customer safety very seriously; and we provide a very competitive rate for the best quality service. We are totally committed to providing the best security and the fact that continual training is given to security personnel to allow them to deal with and foresee incidents and prevent them is a testimony to this principle.

"Our objective is not to do security the way everyone does security but to do it more innovatively and efficiently. We don't want to be the biggest just the most elite."

WHAT WE OFFER

Below is a list of the wide range of services CPS Security offers valued clients. We are dedicated to offering the best and most cost effective solutions to our clients.

- *General Security*
- *Access Control*
- *Armed Reaction*
- *Community Protection*
- *Alarm Systems*
- *CCTV Systems*
- *Electric Fences*
- *Gate & Door Automation*

TRAINING

In addition we have a professional training and recruitment division within our company. Experience has taught us that the demand for experienced guards and a professional placement company dealing with security personnel is an essential service which was lacking in the security industry. All the security personnel we place have been through the required checks i.e. PSIRA registered, ID checks, police record clearance etc. When recruiting guards we do full checks on all applicants and ensure that all information checks out before allocating staff.

WHO WE ARE

CPS is classified as a BBEE company, that is committed to the empowerment and training of HDI's and PDI's within the VIP PROTECTION and SECURITY Services Industry. Our company philosophy is centred on training and empowerment of our staff as well as that of our clients when it comes to safety and security.

We are professionals and a key objective is ensuring safety to all our clients and providing an outstanding service.

Key Considerations

"Our Business is Securing Yours"

The following are what we at CPS believe are key considerations when it comes to selecting a security services company and ones which we place incredibly high emphasis on:

- **Business Needs**
 - ✓ The securing our your premises and customers is a key objective
- **Proven References**
 - ✓ We have a list of reference sites at which customers can be Contacted
- **High Service Levels**
 - ✓ We understand the business of security and quality is never compromised
- **Trained Expertise**
 - ✓ Our security officers are trained and sent on training every 3 months
- **Excellent Response Times**
 - ✓ Appropriate skills at relevant locations ensuring your investment is protected.
- **Cost Effective Solution**
 - ✓ Competitive rates without foregoing quality

We have made a concerted effort to ensure that our business grows on a solid foundation in order to ensure the quality of service we deliver is top quality and personal. All our clients are our most important clients.

“Our Business is Securing Yours”

We believe that given the opportunity to provide the security services to you we will be able to demonstrate our commitment to providing a quality of service unrivalled by any other security company.

CPS strives to attain and maintain the following business objectives: -

Security Services

Access Control & Monitoring

Community Security

Service Level Agreement

"Our Business is Securing Yours"

Our service agreement includes the following as part of the basic SLA:

Security Personnel

- All the Security Officers are registered and graded by the Security Officers Board.
- In order to be able to handle and deal with any security related issues all security officers are given training every 3 months.

Uniforms and Equipment

- At CPS we pride ourselves on the complete look and service to the client and therefore as part of our philosophy we provide each Security Officer with 2 sets of uniforms as part of the complete package at no cost to the security officer, ensuring that a high degree of professionalism is reflected by CPS and the client site's as well.
- Each Security Officer will be equipped with a panic/check point button, in the event of a security issue they will be able to alert either the armed reaction unit or the police depending if the client requires the services of a reaction company or if linked to the police.
- The senior security on site will have access to a cellular phone in which CPS management can be contacted in the event of any accident.

Training

- Another extremely important differentiator between CPS and other security companies, we believe that training is imperative and we guarantee that each security officer will be sent on training at least every 3 months in order to be able to best handle any security issue that may occur.
- CPS thus ensures that all security officers in its employ do attend training that is provided as part of their employment contract with CPS.

Shifts

- Shift registers and hours are strictly stipulated and adhered to, we will never allow double shifts of 12 hours to be worked by any one security officer due to the obvious reasons such as fatigue, etc.

Management Reports and Feedback

- Each week the security manger will receive a print out report of the O.B register for the previous week
- A monthly meeting will be set up between the security management of the company (client) and the COO of CPS to discuss any security related matters.

S.L.A Cont.....

"Our Business is Securing Yours"

Logs and Register

- ✓ Every site has an occurrence book (OB), which is filled and filed every shift; all security incidents are logged in this register.
- ✓ Every security officer carries a log book and any incidents that happen during the shift is logged in this register and then transferred to the occurrence book before the end of shift.
- ✓ Every week, a printed report is given to the Centre Management detailing all the security events and incidents that have taken place over the past week.

Terms of Reference

The following will be provided as standard for each and every shift;

- ✓ Supervisor per Shift
- ✓ Link up to a reaction company (Optional)
- ✓ Handheld Radios
- ✓ Cellular Phones
- ✓ Panic Buttons (Optional)
- ✓ Log Book
- ✓ Occurrence Book register
